

Horizon::Zone::Traits
::Status::increase_status_point

Horizon::Zone::Traits
::Status::initialize

Horizon::Zone::Traits
::Status::strength_cost

```
graph LR; A[Horizon::Zone::Traits::Status::increase_status_point] --> C[Horizon::Zone::Traits::Status::strength_cost]; B[Horizon::Zone::Traits::Status::initialize] --> C;
```

The diagram illustrates a dependency or relationship between three code elements. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'Horizon::Zone::Traits::Status::increase_status_point' and the bottom box contains 'Horizon::Zone::Traits::Status::initialize'. On the right, there is a gray rectangular box with a black border containing the text 'Horizon::Zone::Traits::Status::strength_cost'. Two blue arrows point from the right side of the two white boxes to the left side of the gray box, indicating that the two functions on the left depend on or are related to the 'strength_cost' attribute.
