Horizon::Zone::Traits
::Status::initialize

Horizon::Zone::Traits
::Status::initialize

Horizon::Zone::Traits
::Status::set_initialized

```
graph LR; A[Horizon::Zone::Traits::Status::initialize] --> D[Horizon::Zone::Traits::Status::set_initialized]; B[Horizon::Zone::Traits::Status::initialize] --> D; C[Horizon::Zone::Traits::Status::initialize] --> D;
```

The diagram illustrates a sequence of operations. On the left, three identical boxes represent calls to the function `Horizon::Zone::Traits::Status::initialize`. Blue arrows from each of these boxes point towards a single box on the right, which represents a call to `Horizon::Zone::Traits::Status::set_initialized`. The rightmost box is shaded gray, while the others are white with black borders.
