

Horizon::Networking
::Socket::close_socket

Horizon::Networking
::Socket::set_no_delay

Horizon::Networking
::Socket::remote_ip
_address

```
graph LR; A[Horizon::Networking::Socket::close_socket] --> C[Horizon::Networking::Socket::remote_ip_address]; B[Horizon::Networking::Socket::set_no_delay] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two white boxes with black borders. The top box contains the text 'Horizon::Networking::Socket::close_socket' and the bottom box contains 'Horizon::Networking::Socket::set_no_delay'. On the right, there is a single gray box with a black border containing the text 'Horizon::Networking::Socket::remote_ip_address'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating a relationship or flow from the left-hand methods to the right-hand attribute.
