

Horizon::Zone::GridObject
::add_grid_reference

Horizon::Zone::GridObject
::remove_grid_reference

Horizon::Zone::GridObject
::has_valid_grid_reference

```
graph LR; A[Horizon::Zone::GridObject::add_grid_reference] --> C[Horizon::Zone::GridObject::has_valid_grid_reference]; B[Horizon::Zone::GridObject::remove_grid_reference] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two white boxes with black borders, one above the other. On the right, there is a single gray box with a black border. Two blue arrows originate from the right side of the top white box and the right side of the bottom white box, both pointing towards the left side of the gray box. The text inside each box is centered and consists of two lines: a class name 'Horizon::Zone::GridObject' followed by a method name on the next line.
