

Horizon::Networking  
::AcceptSocketMgr::stop  
\_network

Horizon::Networking  
::ConnectSocketMgr::  
stop\_network

Horizon::Networking  
::SocketMgr::stop\_network

```
graph LR; A[Horizon::Networking::AcceptSocketMgr::stop_network] --> C[Horizon::Networking::SocketMgr::stop_network]; B[Horizon::Networking::ConnectSocketMgr::stop_network] --> C;
```

The diagram illustrates a mapping or transformation. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'Horizon::Networking::AcceptSocketMgr::stop\_network'. The bottom box contains the text 'Horizon::Networking::ConnectSocketMgr::stop\_network'. On the right, there is a gray rectangular box with a black border containing the text 'Horizon::Networking::SocketMgr::stop\_network'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both source components map to the target component.
