

Logger::getInstance

Logger::initialize

Logger::colored_formatter

```
graph LR; A[Logger::getInstance] --> B[Logger::initialize]; B --> C[Logger::colored_formatter];
```

The diagram illustrates a sequence of three methods in a logger class. It consists of three rectangular boxes arranged horizontally. The first box, labeled 'Logger::getInstance', and the second box, labeled 'Logger::initialize', are white with black borders. The third box, labeled 'Logger::colored_formatter', is gray with a black border. Blue arrows point from the first box to the second, and from the second box to the third, indicating a sequential flow.
