

item_slot

```
graph BT; A["zc_ack_read_rodex_item"] -.->|slot| B["item_slot"]
```

The diagram illustrates a pointer relationship. At the bottom, a gray rectangular box contains the text 'zc_ack_read_rodex_item'. A dashed purple arrow points vertically upwards from this box to a white rectangular box at the top containing the text 'item_slot'. To the right of the arrow, the word 'slot' is written in a light gray font.
