

BOOST_AUTO_TEST_CASE

BOOST_AUTO_TEST_CASE

test_connection

```
graph LR; A[BOOST_AUTO_TEST_CASE] --> C[test_connection]; B[BOOST_AUTO_TEST_CASE] --> C;
```

The diagram illustrates a relationship between two test cases and a connection object. On the left, there are two identical white rectangular boxes, each containing the text 'BOOST_AUTO_TEST_CASE'. On the right, there is a gray rectangular box containing the text 'test_connection'. Two blue arrows originate from the right side of the top 'BOOST_AUTO_TEST_CASE' box and the right side of the bottom 'BOOST_AUTO_TEST_CASE' box, both pointing towards the 'test_connection' box. This suggests that both test cases are associated with or utilize the 'test_connection' object.
