_ENTER::deliver

```
graph LR; A[Horizon::Char::CharClient Interface::authorize_new_connection] --> D[Horizon::Char::HC_REFUSE_ENTER::deliver]; B[Horizon::Char::CharClient Interface::pincode_verify] --> D; C[Horizon::Char::CharClient Interface::select_character] --> D; E[Horizon::Char::CharClient Interface::update_session] --> D;
```

The diagram illustrates a central delivery point for four different interface methods. On the left, four white rectangular boxes are stacked vertically, each containing a method name from the `Horizon::Char::CharClient Interface`. Blue arrows originate from the bottom-right corner of each box and point towards a single gray rectangular box on the right. This gray box contains the text `Horizon::Char::HC_REFUSE_ENTER::deliver`, which serves as the common destination for all four arrows.
