

BOOST_AUTO_TEST_CASE

BOOST_AUTO_TEST_CASE

ConnectionPool::get
_connection

```
graph LR; A[BOOST_AUTO_TEST_CASE] --> C[ConnectionPool::get_connection]; B[BOOST_AUTO_TEST_CASE] --> C;
```

The diagram illustrates a relationship between two test cases and a connection pool. On the left, there are two white rectangular boxes, each containing the text 'BOOST_AUTO_TEST_CASE'. Blue arrows point from the right side of each of these boxes to a single gray rectangular box on the right. This gray box contains the text 'ConnectionPool::get' on the top line and '_connection' on the bottom line, representing a method call to the connection pool.
